Notes to the financial statements for quarter II 2020

Form B 09a – DN
*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. Reporting entity

Ownership structure

Danang Port Join Stock Company (“the Company”) is incorporated as a joint stock company in Vietnam through transformation of the ownership form from a State-owned one-member limited liability company to a joint stock company under Decision No. 216/QĐ-HHVN dated 6 May 2014 of the Members’ Council of Vietnam National Shipping Lines.

Principal activities

In accordance with the Enterprise Registration Certificate of the Company, its registered activities comprise loading and unloading services, support services for waterway transportation and other transportation support services, warehousing and storage services, restaurant and catering services, trading of solid, liquid and gas fuels, retail of other goods in specialised shops and other services.

During the period, the Company’s principal activities include loading and unloading services, support services for waterway transportation and other transportation support services, warehousing and storage services.

Normal operating cycle

The normal operating cycle of the Company is generally within 12 months.

At as 30 June 2020, the Company had 678 employees (01/01/2020: 673 employees).

2. Basis of preparation

Statement of compliance

These financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

Basis of measurement

The financial statements, except for the statement of cash flows, are prepared on the accrual basis using the historical cost concept. The statement of cash flows is prepared using the indirect method.

Annual accounting period

The annual accounting period of the Company is from 1 January to 31 December.

Accounting and presentation currency

The Company’s accounting currency is Vietnam Dong (“VND”), which is also the currency used for financial statement presentation purpose.

Form B 09a – DN
*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

3. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Company in the preparation of these financial statements.

Foreign currency transactions

Transactions in currencies other than VND during the year have been translated into VND at actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the average of the account transfer buying rates and selling rates at the end of the accounting period quoted by the commercial bank where the Company most frequently conducts transactions.

All foreign exchange differences are recorded in the statement of income.

Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Investments

Held-to-maturity investments

Held-to-maturity investments are those that the Company's management has the intention and ability to hold until maturity. Held-to-maturity investments include term deposits at bank. These investments are stated at costs less allowance for doubtful debts

Investments in associates

Investments in associates are initially recognized at cost which includes purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the investee has suffered a loss, except where such a loss was anticipated by the Company's management before making the investment. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

Investments in equity instruments of other entities

Investments in equity instruments of other entities are initially recognized at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment values if the investee has suffered a loss, except where such a loss was anticipated by the Company's management before making the investment. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

Danang Port Joint Stock Company
Notes to the financial statements for quarter II 2020 (continued)

Form B 09a – DN
*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and selling expenses.

The Company applies the perpetual method of accounting for inventories.

Tangible fixed assets

Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

▪ Building	05 – 30 years
▪ Plant and machinery	04 – 20 years
▪ Motor and vehicles	05 – 10 years
▪ Office equipment	03 – 08 years
▪ Other assets	04 years

Intangible fixed assets

Land use rights

Land use rights comprise:

- Those granted by the State for which land use payments are collected; and
- Those acquired in a legitimate transfer.

Indefinite term land use rights are stated at cost and not amortised.

Software

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software cost is amortised on a straight-line basis over 2 to 3 years.

Form B 09a – DN

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

Investment property

Investment property held to earn rental is stated at cost less accumulated depreciation. The initial cost of an investment property comprises its purchase price, cost of land use rights and any directly attributable expenditures of bringing the property to the condition necessary for it to be capable of operating in the manner intended by the Board of Directors. Expenditure incurred after the investment property has been put into operation, such as repairs and maintenance, is charged to the statement of income in the year in which the expenditure is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in future economic benefits in excess of the originally assessed standard of performance of the existing investment property, the expenditure is capitalised as an additional cost of the investment property.

Depreciation is computed on a straight-line basis over the estimated useful lives of investment property. The estimated useful lives are as follows:

- Buildings: 25 years

Construction in progress

Construction in progress represents the costs of construction and machinery which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

Prepaid expenses

Tools and instruments

Tools and instruments include assets held for use by the Company in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulation. Cost of tools and instruments are amortised on a straight-line basis not over 2 years.

Business advantage

Business advantage arising from equalisation of state-owned enterprises are determined under Circular No. 202/2011/TT-BTC dated 30 December 2011 of the Ministry of Finance guiding financial treatment and enterprise valuation upon transformation from a 100% State-owned company into a joint stock company. Business advantage is amortised on over a period of 3 years.

Trade and other payables

Trade and other payables are stated at their cost.

Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Severance allowance

Under the Vietnamese Labour Code, when an employee who has worked for 12 months or more voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employee's compensation at termination. Provision for severance allowance has been provided based on employees' years of service and their average salary for the six-month period prior to the end of the annual accounting period. For the purpose of determining the number of years of service by an employee, the period for which the employee participated in and contributed to unemployment insurance in accordance with prevailing laws and regulations and the period for which severance allowance has been paid by the Company are excluded.

Share capital

Ordinary shares

Ordinary shares are stated at par value. Incremental costs directly attributable to the issue of shares, net of tax effects, are recognized as a deduction from share premium.

Taxation

Income tax on the profit or loss for the period comprises current and deferred tax. Income tax is recognised in the statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the accounting period, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Revenue and other incomes

Goods sold

Revenue from the sale of goods is recognised in the statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods. Revenue on sales of goods is recognized at the net amount after deducting sales discounts stated on the invoice.

Services rendered

Revenue from services rendered is recognised in the statement of income after completion of the services. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

Rental income

Rental income from leased property is recognised in the statement of income on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income.

Interest income

Interest income is recognized on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

Dividend income

Dividend income is recognized when the right to receive dividend is established. Dividends received which are attributable to the period before investment acquisition date are deducted from the carrying amount of the investment.

Operating lease payments

Payments made under operating leases are recognised in the statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognized in the statement of income as an integral part of the total lease expense.

Borrowing costs

Borrowing costs are recognised as an expense in the year in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalized as part of the cost of the assets concerned.

Earnings per share

The Company presents basic and diluted earnings per share ("EPS") for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

Segment reporting

A segment is a distinguishable component of the Company that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Board of Directors determined that the Company primarily operates in only one business segment, which is port related services and one primary geographical segment, which is Vietnam, with similar economic, political and regulatory conditions.

Related parties

Parties are considered to be related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Company and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.
